REMARKABLE EXPERIENCES

UX/UI Designer (Internship), Magnetolabs │ June - July 2021 (2 months)

- Designed website templates in Figma for faster project delivery with considerations of aesthetic and coding difficulties in mind.
- Provided recommendations to existing TAMCO website UI design and learned about considerations and decisions between marketing and user experience.
- Used WordPress to create personal website and fill in the information in College of Music, Mahidol University's website project.

Chulalongkorn University Registration Website Redesign │ Personal project

- Pitched to the Office of Registrar, Chulalongkorn University.
- Redesigned registration website of Chulalongkorn University with up-to-date interface and improved user experience in the design.
- Developed a semi-working prototype of the first design using HTML, CSS, Bootstrap and Javascript.
- Utilised the knowledge from the internship at Magnetolabs to design second iteration of registration website in Figma.

Portfolio Website Design & Development │ Personal project

- Designed, set up, and developed a showcase portfolio for personal works from scratch using HTML, CSS, Bootstrap and Javascript.
- Currently developing the second version of the website with interactive elements, improved user interface, and better user experience.

ADDITIONAL CERTIFICATIONS

Innovation Through Design: Think, Make, Break, Repeat │ 2021
